Location: Pakistan

About Me

14-year-old O Levels student passionate about coding, game development, and modding. I love building projects, experimenting with game mods, and learning new technologies.

Skills

- Programming Languages: Python, JavaScript, HTML, CSS, GDScript
- Frameworks/Tools: React, Node.js, Tailwind, Git, VS Code, Godot
- Other Skills: Linux/WSL, Minecraft & GTA modding, bicycle tinkering

Projects

- Terminal Resume (LiveTerm) – Interactive terminal-style resume showcasing my skills.
- Pygame Illusion Maker – Generates abstract patterns using mathematical constants like ϕ .
- Minecraft Mods – Custom items, mechanics, and small mods.
- GTA VC/SA/3 Mods – Tweaks physics, textures, and gameplay elements.
- Godot Experiments – Learning GDScript, building small games.
- Bike Mods – Upgrading and customizing my bicycle.

Education

Currently studying Cambridge O Levels, O1 Student

Fun Facts / Extra

- Played 105+ hours of Among Us (mostly public lobbies \square)
- Experimenting with open-source projects and Linux tinkering
